

CenturyLink™

Voice Services

CENTURYLINK™ OFFERS A VARIETY OF VOICE SOLUTIONS THAT CAN HANDLE ALL OF YOUR VOICE NEEDS. FROM RELIABLE LONG DISTANCE TO HIGH TECH AUDIO CONFERENCING, CENTURYLINK™ CAN ENSURE YOUR BUSINESS HAS THE TECHNOLOGY TO CONNECT WITH YOU CUSTOMERS.

Long Distance - CenturyLink™ makes it easy for you to plan and budget for your long distance by offering one simple, monthly flat rate.

IP-Based PBX Solutions – PBX is short for private branch exchange which means that a private telephone network is located right on your premises. A CenturyLink™ PBX Telephone System can provide the solution to diverse communications needs with equipment that is easy to use, flexible, feature-rich, and customized for your business. A PBX system from CenturyLink™ can deliver:

- Sophisticated messaging
- Multi-media communications
- Integrated voice and data
- Wireless technology
- Networking of multiple locations/branches
- IP functionality
- Optimum return on your investment

Audio Conferencing – Save time and money by utilizing audio conferencing. Whether its bringing various departments together, connecting with remote employees, or talking with customers, CenturyLink™ audio conferencing is the fast and efficient way to communicate your message.
