

ETHERNET

Ethernet delivers high-speed, business-class bandwidth for up to 50% less than comparable T1 service.

Ethernet provides reliable, business-class bandwidth from 2x2 Mbps up to 20x20 Mbps for a much lower cost than DS3 access or comparable Bonded T1 service. Ethernet is a fully managed solution backed by an ironclad service level agreement that guarantees 99.99% monthly uptime. If your business has intensive bandwidth demands, there's no better value.

HIGH-PERFORMANCE BANDWIDTH. Ethernet delivers a choice of symmetrical speeds and is fully scalable to meet the growing demands of your business. This solution is ideal for businesses that:

- Run servers for websites, email, databases or applications
- Transfer large data, image or video files
- Support remote workers or VPNs
- Supports VoIP with QoS

GUARANTEED RELIABILITY. Ethernet comes with the same 99.99% monthly uptime guarantee as our T1 or DS3 service. Our robust service level agreement (SLA) also guarantees 4-hour response time and 30-day installation.

EASY TO INSTALL & MANAGE. Ethernet utilizes your existing infrastructure and reliable copper loop bonding technology to ensure rapid deployment and a seamless connection. We will provide a trained technician to install your service. You don't have to worry about a thing.

24/7/365 SUPPORT. Our experienced support agents are available around the clock to answer any questions that arise. We can even dispatch repair technicians after hours, on weekends, and on federal holidays to keep your business operating.

The New MegaPath

Triple-Strength Business Solutions

Speakeasy, Covad and MegaPath have combined to form one company serving small, medium and enterprise businesses nationwide.

BENEFITS AT A GLANCE

Lower Cost.

Ethernet delivers more bandwidth at a lower cost than other business-class broadband options.

Symmetrical Speed.

Choose from 2x2 Mbps, 3x3 Mbps, 5x5 Mbps, 8x8 Mbps, 10x10 Mbps, 15x15 Mbps, or 20x20 Mbps.

Business-Critical Reliability.

Guaranteed 99.99% monthly service uptime.

Use Existing Infrastructure.

Ethernet is easy to install and manage. No expensive cabling required.

24/7/365 Support.

Our most experienced agents are on call to own any issue from start to resolution.

“We considered every available option - including moving our office - and found that Ethernet was the only affordable service offering the bandwidth we needed to continue operating our business effectively. The install was simple, and the reliability has been brilliant.”

- Brad Hirsh, President + COO, Retail Entertainment Design

**The New
MegaPath Advantage**

Covad, Speakeasy, and MegaPath have united as one company. Here’s what that means for your business:

End-to-End Nationwide Infrastructure.

Our privately managed MPLS network provides exceptional performance, total redundancy, and the flexibility to deliver true voice Quality of Service.

Complete Service Portfolio.

We offer a full range of business broadband, voice, MPLS, VPN, and security services.

Unbeatable Experience.

We’ve been serving businesses with innovative communications services for 16 years.

Superior Customer Support.

Our friendly technical experts respond quickly and efficiently 24/7/365.

FEATURES	DETAILS
Ethernet Technology	Ethernet is different than a Bonded T1 connection because it uses a loop bonding technology, while T1s use a link-bonding technology. Although both are effective, loop bonding is a newer technology that reduces overhead and deals with loop failure more efficiently. That means more bandwidth remains available for applications and your connection is less likely to suffer if one loop fails.
Speed	Seven symmetrical speed options: 2 Mbps, 3 Mbps, 5 Mbps, 8 Mbps, 10 Mbps, 15 Mbps, and 20 Mbps.
IP Addresses	Includes up to 32 static IP addresses
Equipment	Layer 2 termination
Service Level Agreement	The following service level targets are financially backed by available invoice service credits: <ul style="list-style-type: none"> • 99.99% monthly service level availability • 4-hour response time • 99.9% data delivery; network delay of 110 ms • Installation within 30 calendar days
Dial-Up Access	Unlimited while awaiting installation; after installation, 10 hours free per month; \$1.50 per hour thereafter.
Installation	Professional installation and set up of your Ethernet service.
Support	Expert support agents and technicians available 24x7, even on weekends and holidays.
Account Management	The online management tool makes it easy to check your order status, update your account, and pay your bill at any time.
Availability	Ethernet is currently available in: Atlanta, Boston, Chicago, Cleveland, Dallas, Denver, Detroit, Houston, Las Vegas, Los Angeles, Miami, Minneapolis, New Jersey/New York, Philadelphia, Phoenix, San Francisco, Seattle, Washington DC, and many other markets.
