

BUSINESS TELEPHONE SYSTEMS

In today's ever-changing world of telecommunications, businesses are looking for a trusted partner who can help guide them through the myriad of changing technologies. Integra Telecom combines the industry's premier telecommunications equipment with a full suite of local, long distance, internet and T1 services. This unique combination of equipment and service provides an end-to-end solution designed to help your business run more efficiently.

Whether you need the latest in IP Telephony Solutions or a basic phone system, Integra will help you through the entire process, from selection and installation to training and on-going support.

BUSINESS COMMUNICATIONS PLATFORMS

In order to address the wide range of business requirements for our customers, Integra Telecom represents three industry leading manufacturers – Mitel, Inter-Tel and NEC. Each of these companies was selected for their award-winning technology, reputation for support and commitment to past and future technology.
