

Level 3® Voice Services mix and match the best of proven, new technology (VoIP) with legacy voice technologies (TDM), applied ubiquitously across the United States. We own and operate one of the largest voice networks in the U.S., enabling competitive cost structures and new, efficient ways of managing voice traffic.

Level 3 Enterprise Long Distance The Smartest Call You'll Ever Make

Your long-distance service has to deliver mission-critical reliability. That's why the largest phone companies already trust the Level 3 network to deliver their services. Now we're bringing that same reliability directly to enterprise businesses, giving you a robust and cost-effective long-distance solution. With Level 3® Enterprise Long Distance service, you receive a cost-effective, reliable solution, enabling you to place outbound long-distance calls over a dedicated or switched connection between your locations and the Level 3 long-distance network. The end result is a crisp voice service delivered over a high-performance digital communications network.

Business Solutions

- **Reduce Costs:** With the Level 3 Enterprise Long Distance service, you can lower your usage rates and consolidate your long-distance traffic for interstate, intrastate and international calls.
- **Support Business Growth:** Our high-performance, scalable network can easily accommodate your current and future traffic. Dedicated or Switched, TDM or SIP, Level 3 has the solution to meet your needs.
- **Expense Management and Control:** Expense management features allow you to easily track and allocate costs to employees, clients, departments or projects.

- **Simplified Supplier Management:** Using Level 3 as a single supplier with local presence and national reach can simplify your supplier management and billing.
- **Reliability and Performance:** The Level 3 facilities-based Tier 1 network features redundancy throughout the Level 3 infrastructure, providing reliability and performance you can trust.
