

# Convenient

## Interactive and Flexible

**Create powerful multimedia presentations with fully integrated audio, video and web conferencing tools.** Adobe® Connect™ allows you to connect and engage audiences in recurring meetings, training sessions and more formal events.

Adobe Connect allows you to connect and engage audiences in recurring meetings, training sessions and more formal events.

Unlike other offerings, Adobe Connect utilizes the Adobe Flash® Player, which is currently installed on over 98% of web-connected desktops allowing your audience to join instantly, without special plug-ins or fancy hardware.

Adobe Connect offers the ability to personalize your meetings with a logo, modular pods and a unique meeting URL that's easy to remember. With hosted and on-premise deployments available, Adobe Connect provides excellent support for multi-media presentations and video.

Like all of the PGI web conferencing solutions, Adobe Connect is integrated with PGI's anytime, automated audio conferencing services, for a seamless, hassle-free meeting experience.

### Benefits of Using Adobe Connect

- > **Less travel equals lower costs.** Save time and money by meeting online and avoid the hassles of business travel.
- > **Increased productivity.** Meet more frequently with customers, colleagues and business partners, thereby increasing your business output in the same amount of time.
- > **Real-time collaboration.** Share, collaborate and discuss your projects in real-time – make critical decisions quickly, with all the stakeholders, regardless of geography.
- > **More effective online presentations.** Deliver remote presentations with the same effectiveness as being in person.

### Adobe Connect features:

#### INTEGRATED AUDIO CONTROLS

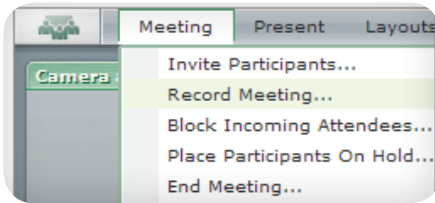

Control your PGI audio directly from the meeting room, including mute/unmute, volume, and disconnect.

#### APPLICATION AND DESKTOP SHARING

Presenters can expand the viewing area for shared applications, documents and whiteboards.

## MEETING RECORDINGS

Record a conference so that those who missed the meeting can hear and see the audio and web content at a later time.

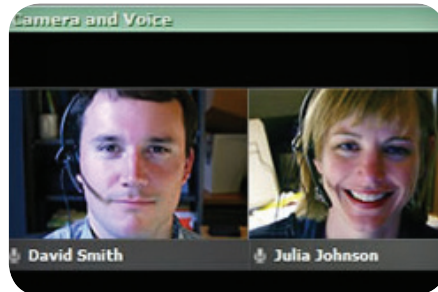

## BRANDING

Customize the look and feel of your meeting room layout and include corporate logos and colors for meetings and web seminars.

## MULTIPOINT VIDEO

Unlimited number of images using standard USB or FireWire webcams for high quality video conferencing.

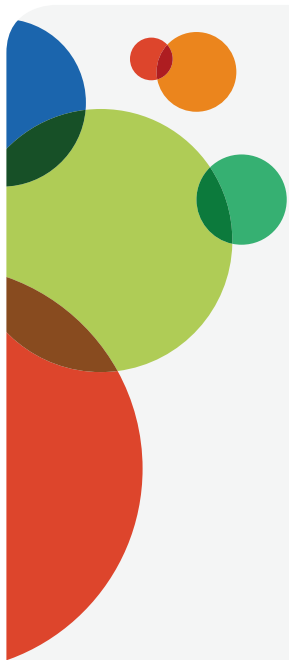

## BREAKOUT ROOMS

Create private sub-meetings for users involved in meetings or virtual classrooms.

## Why PGI?

With PGI, you'll receive unparalleled service and support with our integrated audio and web offering. Through the use of the Adobe Flash Player and PGI's automated audio, conducting web meetings has never been easier - and with no software to download.
