

XO[®] LONG DISTANCE

XO Long Distance services provide cost-effective domestic and international long distance plans that you may combine with a full range of powerful communication options such as conferencing services, domestic and international toll-free numbers, and multiple management features.

With a nationwide network across more than 75 major U.S. markets and international calling to more than 250 countries worldwide, XO Communications provides the calling coverage that today's businesses demand. XO Long Distance services help organizations improve communications, get better control over operating costs, and simplify the management of company-wide long distance requirements.

A Choice of Calling Plans

XO Communications can recommend the long distance (LD) solution that is the best fit for your business size, locations, coverage needs and calling patterns. All XO Long Distance services provide cost-effective in-state and state-to-state calls including calls to all U.S. territories.

XO Corporate Long Distance Plans

For small to large multi-location businesses that need all locations to contribute to a company-wide, dedicated, domestic long distance plan—for the best volume discounts and ease of administration

- Select from a range of plans with monthly minimum spending levels from \$275 up to \$10,000/month, and all domestic long distance usage from all locations contributes to the monthly commitment amount
- Enjoy low, flat-per-minute, dedicated LD rates for in-state and state-to-state calls
- Save more with 6-second initial and 6-second standard billing increments (6/6) for dedicated LD calls
- Get domestic toll-free traffic included in the plan
- Centralize billing under one plan.

Benefits

- **A range of business, corporate and enterprise domestic calling plans**—that you may combine with your total XO voice, data or IP service
- **International Calling Plans**—to more than 250 countries for companies that have an international presence or conduct international business overseas
- **Highly competitive rates**—for all XO Long Distance pricing plans

More Benefits

- **Extensive Nationwide IP Network Coverage and Reliability**—using the XO multi-terabit network that delivers industry leading solutions at the fastest speeds available, and enables dependable door-to-door delivery of your long distance traffic nationwide and around the world
- **International and Domestic Toll-Free numbers**—including a broad range of domestic toll-free features especially designed for businesses
- **Optional Conferencing Services**—that save you time, money and boost productivity
- **Cost Management Packages**—to help you control and manage your organization's long distance expenses.

XO Enterprise Long Distance Plan

For medium to large businesses with large volumes of outbound long distance calls, the Enterprise Long Distance plan provides extremely competitive rates for domestic long distance, plus discounts based on your total spending for all XO services.

- Pay the lowest possible prices because pricing is based on your unique mix of calling patterns
- Can select plans for a lower commitment per month with a higher, per-minute rate may arrange for each location to invoice and manage its own long distance calling
- Save more with 6-second initial and 6-second standard billing increments (6/6) and four decimal-place rounding for dedicated LD calls
- Benefit from domestic toll-free traffic included in the plan
- Make the most of your total spending—because you earn higher discounts on domestic outbound long distance based on your total spending with XO Communications.

XO Long Distance Plans

Long Distance Business Plans provide a range of pricing options for small- to medium-size businesses that need flat-rate plans ranging from 0 to 80,000 minutes per month. XO LD Business Plans are ideal for businesses that want each location to invoice and manage its own long distance plan.

- Choose an LD Business Plan with any XO converged VoIP service
- Obtain one flat rate for dedicated long distance traffic from a single location—in-state, state-to-state and toll free calls
- Manage your telecom budget easier with predictable monthly charges
- Benefit from domestic toll-free traffic included in the plan
- Gain 6-second initial and 6-second standard billing increments (6/6) for most dedicated LD plans (except LD Business Plan 0, which has 60/6 billing increments).

XO Unlimited Business Plan

The XO Unlimited Business Plan is designed primarily for small businesses that require simple, low maintenance long distance.

- Features a flat \$20 monthly recurring charge per business line with unlimited number of long distance calls over the line
- Requires a maximum of 10 lines per location
- Does not include domestic toll-free traffic
- Uses 60-second initial and 6-second standard billing increments.

XO Global International Plans

Business can enjoy competitive rates when calling more than 250 countries worldwide. The XO Global International plans are designed for companies that buy XO services and that have an international presence or conduct international business overseas.

- Maximize your savings because the international calling of all of your locations contributes to company-wide volume discounts, regardless of whether every location has local services with XO Communications
- Choose from a \$1000 monthly commitment with a 5% discount; or a \$5000 monthly commitment with a 10% discount off base pricing, and also get international toll-free number usage or Universal International Freephone number usage at a 15% discount with either monthly commitment plan
- Enjoy competitive rates for international calls even when you don't sign up for one of the monthly commitment plans.

Special Long Distance Packages and Features

Add, a la carte, many custom features to your long distance services—everything from conferencing to domestic toll-free number configurations to cost management packages

Conferencing Services

All businesses have frequent needs for meetings, and often it's easier and more cost-effective to conduct those meetings by phone than in person. XO Conferencing Services save time, save money and boost productivity.

- Choose from a range of audio and Web conferencing options with many extra features
- Conduct any type of conference call—from the impromptu brainstorming session among a few people, to the scheduled Shareholder Event Call for thousands of attendees
- Schedule and manage meetings anywhere, anytime, with point-and-click simplicity
- Only pay for the options and features you need as you need them

Domestic Toll-Free Number Features

Many domestic toll-free calling features are available individually or bundled in convenient packages, depending on your needs and XO service. Some are free; others are available at a nominal monthly charge.

- **Directory Listing**—Lists your toll-free number in yellow page and toll-free directories
- **Call Area Selection**—Helps to reduce your telecommunications costs by allowing you to block calls from outside your service area
- **Day of Week, Day of Year (Holiday), Routing**—Allows businesses with multiple locations to project an image of a 24/7 business because calls from one location can be routed to another location in a different time zone
- **Dialed Number Identification Service**—Gives you advance notification of which number is being dialed so you know how to answer the call
- **Alternative Routing**—Reroutes calls to another location in the event of an emergency so you don't lose important business calls
- **Disconnect Referral Messages**—When you disconnect toll-free numbers, this feature notifies and redirects your end users to a new number
- **Geographic-based Rerouting**—Helps you streamline traffic usage based on state or region
- **Overflow Routing (route advance)**—Helps you control potential toll-free number congestion so you capture every incoming call
- **Payphone Blocking**—Lets you avoid the surcharge for payphone calls by blocking calls from end users who call your toll-free number from a payphone
- **Percentage Allocation Routing**—Allocates traffic to various terminating locations to avoid call congestion on your toll-free line
- **Real Time Automatic Number Identification Delivery**—Allows you to pull customer information from a database before the call to your toll-free number connects
- **Time of Day/Time of Interval Routing**—Allows you to reroute toll-free numbers by time of day, using 15-minute intervals

About XO Communications

XO Communications, a subsidiary of XO Holdings, Inc. (OTCBB: XOHO), is a leading nationwide provider of advanced communications services and solutions for businesses, enterprises, government, carriers and service providers.

XO customers include more than half of the Fortune 500, in addition to leading cable companies, carriers, content providers and mobile network operators. Utilizing its unique combination of high-capacity nationwide and metro networks and broadband wireless capabilities, XO offers customers a broad range of managed voice, data and IP services with proven performance, scalability and value in more than 75 metropolitan markets across the United States.

For more information, call your XO sales representative, visit www.xo.com or call: **866.349.0134**

International Toll-Free Numbers

International toll-free numbers are available for businesses that want customers and traveling employees to be able to make inbound calls on a dedicated, toll-free service.

- Give international callers a toll-free number in their own countries to reach you—without being intimidated by the cost of the call
- Help communicate a local presence to customers in foreign countries
- Help you market your business overseas.

Optional Cost Management Packages

Choose from a range of packages that help you better control your company's long distance expenses.

- **Custom Account Codes**—Help you track long distance calls by project or client. Account codes are ideal for law firms, consulting firms or other professional service businesses that either book these expenses to clients or want to use account codes to monitor spending at the cost center or department level.
- **Custom Account Access Codes**—Help protect your company from unauthorized long distance use by creating custom access codes that your employees use to access the company's long distance network
- **Call Detail Reports**—Available for all LD Business Business Plans, call detail reports help your long distance administrators analyze call traffic, trends and activities to maximize efficiencies

XO Long Distance Services may be sold to locations within the XO Local Services footprint. All XO Long Distance plans contain separate rates for locations with dedicated long distance (when local service is also provided by XO Communications) and locations with switched long distance (when local service is switched to XO Communications from another local provider). Note that Switched long distance is only available to customers with more than one location and at least one location uses XO for local services. All domestic long distance calling plans include calls to Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands, Guam, Northern Mariana Islands and American Samoa. Not all plans are available in every market. A minimum of a one-year term contract applies for all XO long distance plans. Not all toll-free number features are available with every XO service. Applicable surcharges and taxes may apply.
